Arabesk TV - UX Scenario

App ID: com.arabesk.tv Version: 1.0.0 Seller: RM Apps Platform: webOS TV (web app, 1920x1080)

What the app is. Arabesk TV is a TV player for the customers of the Arabesk TV service. It plays the live channels, movies and series included in the customer's subscription. The app has no in-app purchases and no ads. The subscription is sold and activated by Arabesk customer service outside the app; each TV gets its own fixed activation code.

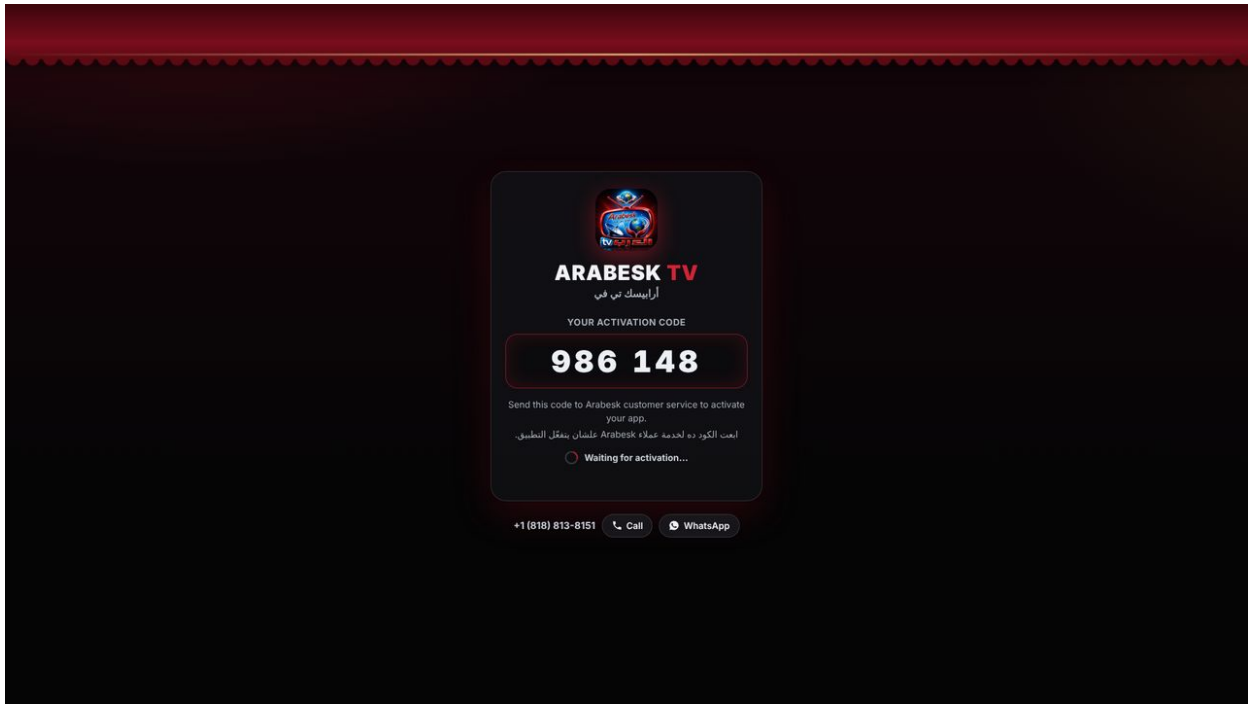

HOW TO TEST (test account): the app has no username/password screen. Instead:

Step	What to do	What happens
1	Launch Arabesk TV	The activation screen shows this TV's 6-digit activation code.
2	Press the RED button on the remote	A "Review access PIN" box opens under the code.
3	Type the review PIN (given in the Note for Tester) with the number keys and press OK	The TV is activated with our review subscription (valid until Feb 9, 2027). After a few seconds the home screen opens.
4	(Alternative) Send the code to us on WhatsApp +1 818 813 8151	We activate the code manually.

Remote control keys (standard remote and Magic Remote pointer):

Key	Action
Arrow keys	Move the focus (gold frame) between items
OK	Open the focused item. Hold OK about 1 second on a channel, movie or series to add it to / remove it from Favorites
Back	Close the open panel or go back one screen; on the home screen Back exits the app
Live TV full screen: Up / Down	Next / previous channel (an info bar shows channel, now and next program, date, time, place)
Live TV full screen: OK	Show the categories + channel list on top of the video (stays until Back)
Other keys in full screen	Show the info bar again
RED (activation screen only)	Review access PIN box

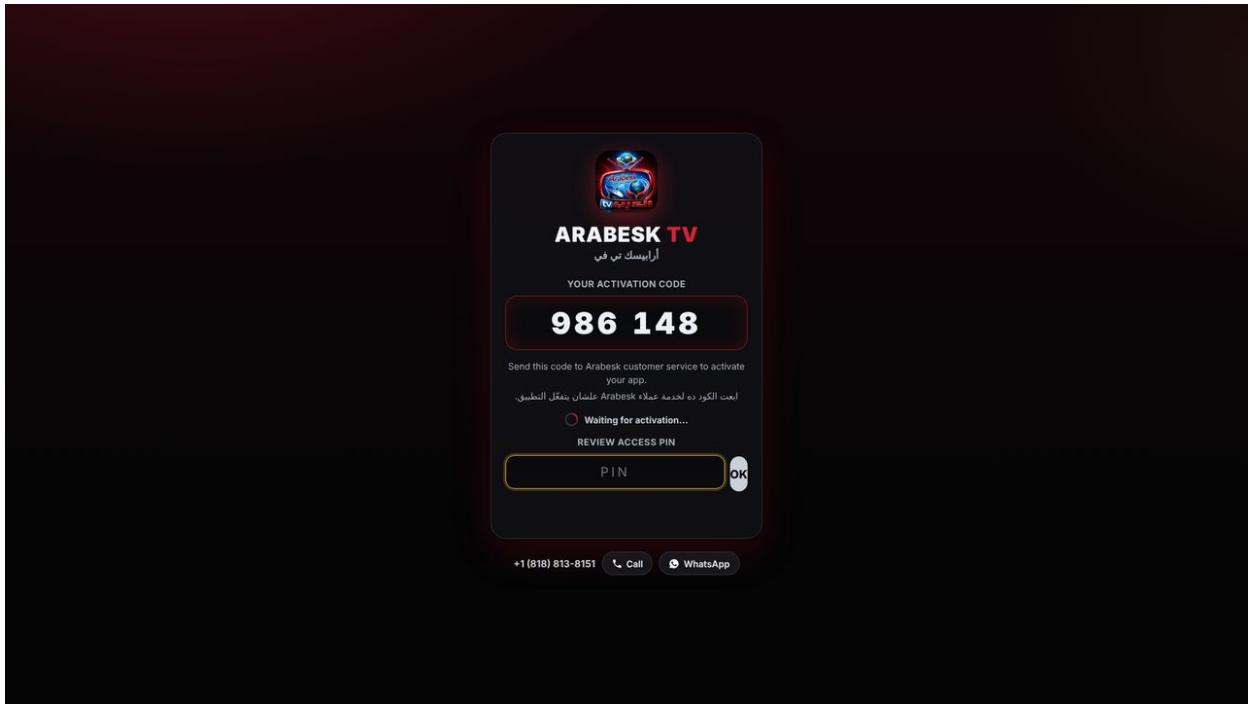

1. Activation screen

Shown on first launch. The 6-digit code belongs to this TV and never changes. The customer sends it to customer service; the app opens the home screen by itself once the code is activated.

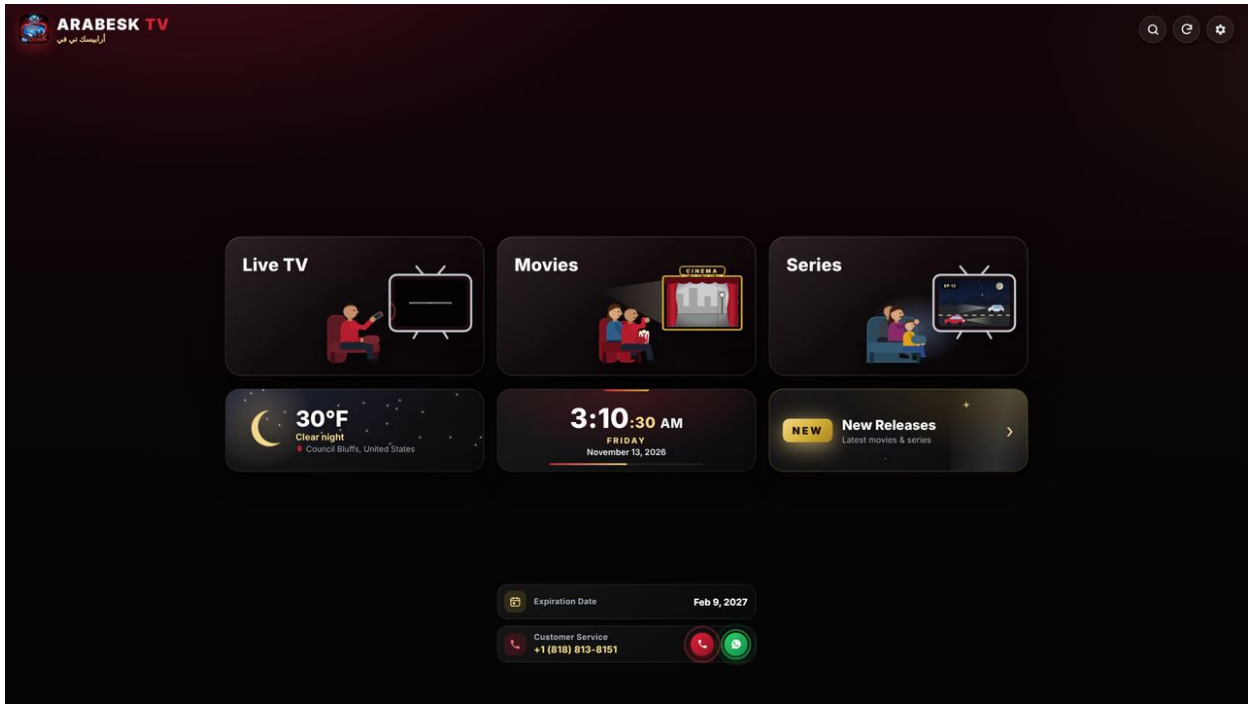

Review: press the RED button, enter the review PIN from the Note for Tester, press OK.

2. Review PIN box

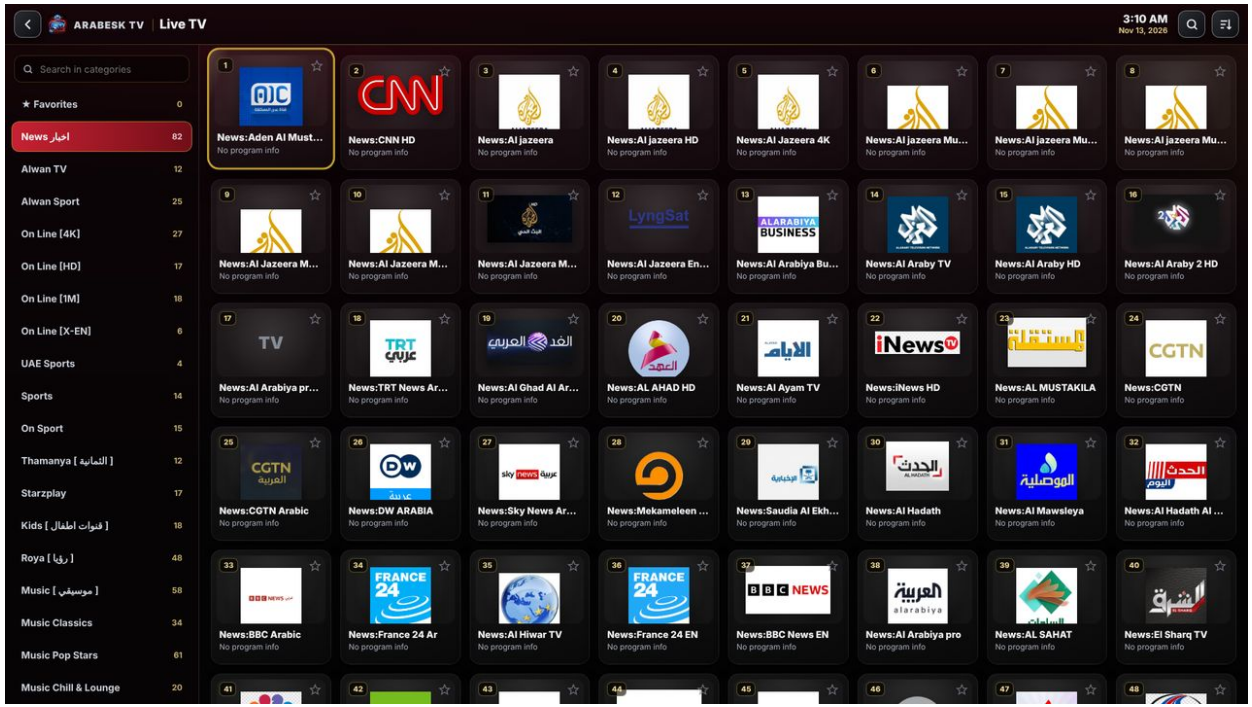

Opened by the RED button. Number keys type the PIN; OK confirms. A wrong PIN shows "Wrong PIN".

3. Home screen

Three main cards: Live TV, Movies, Series. Below: weather, clock, New Releases. At the bottom: subscription expiration date and the customer service number. Back on this screen exits the app.

4. Live TV: categories and channels

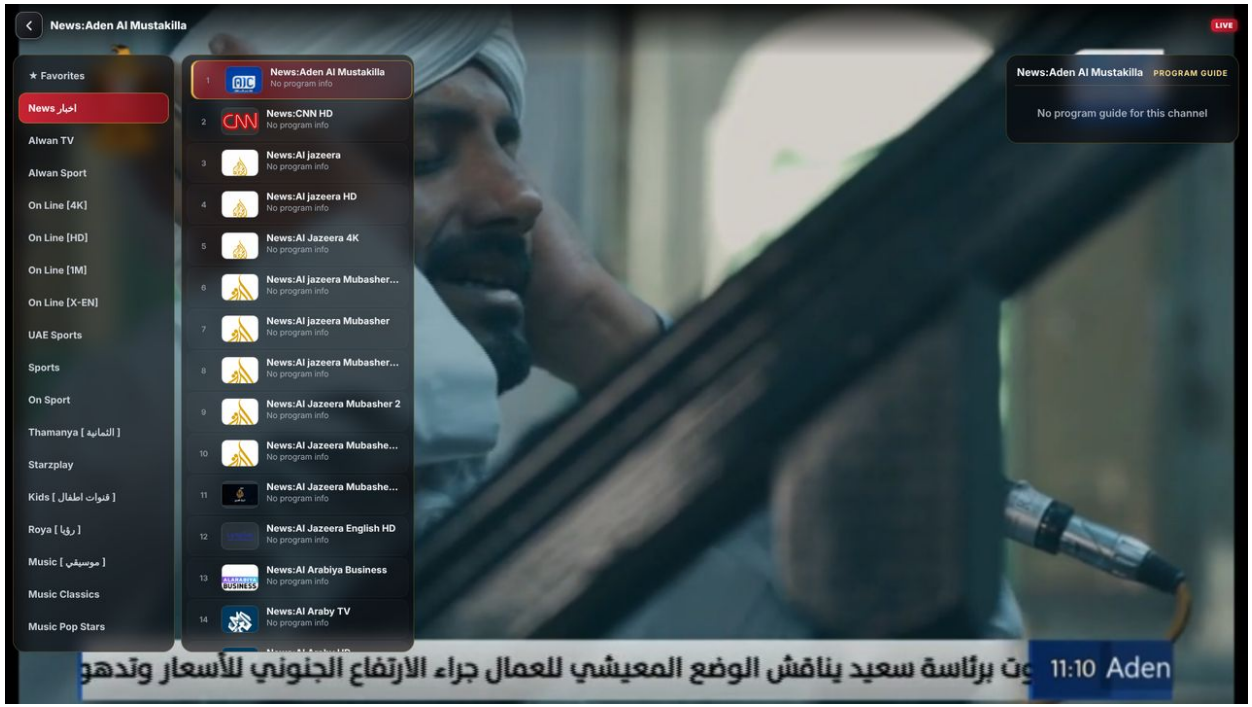

Left: categories, Favorites is always first. Right: channel cards with logo and current program. OK opens the channel full screen. Hold OK = add to Favorites.

5. Live TV: full screen with info bar

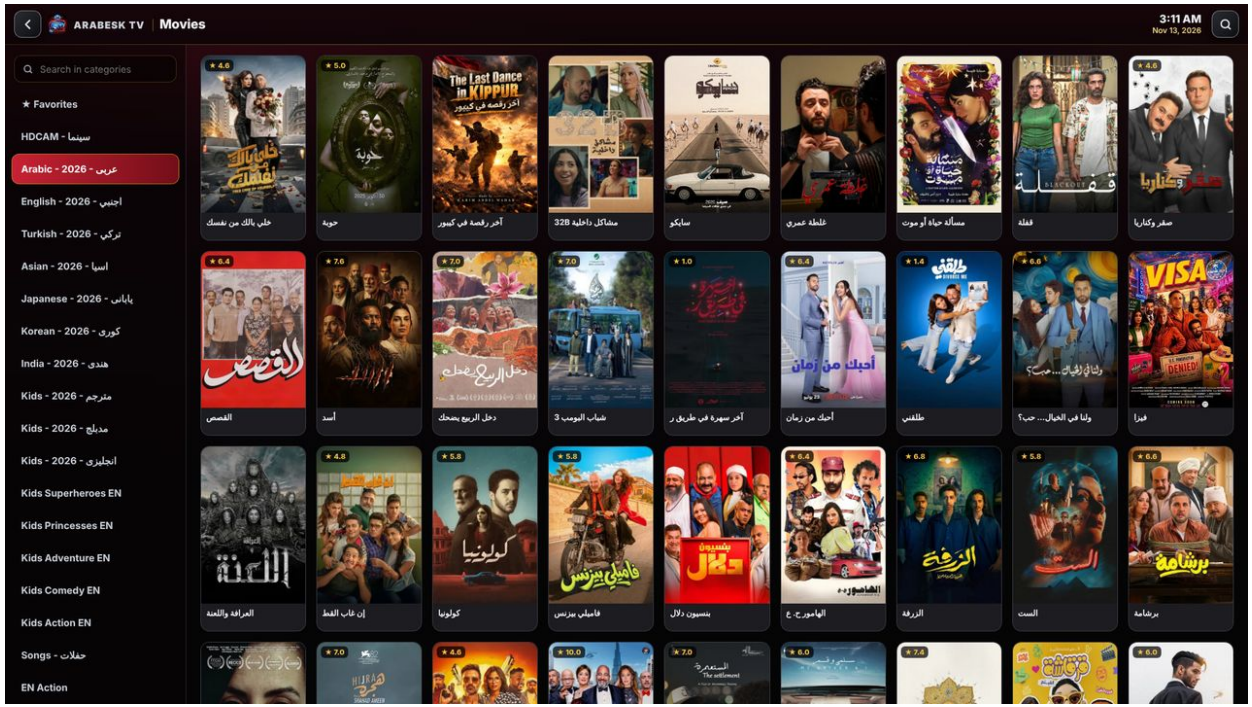

Up = next channel, Down = previous channel. The info bar shows channel number, logo, name, LIVE, current and next program, date, clock and location; it hides after 6 seconds. Back returns to the channel screen.

6. Live TV: channel list over the video

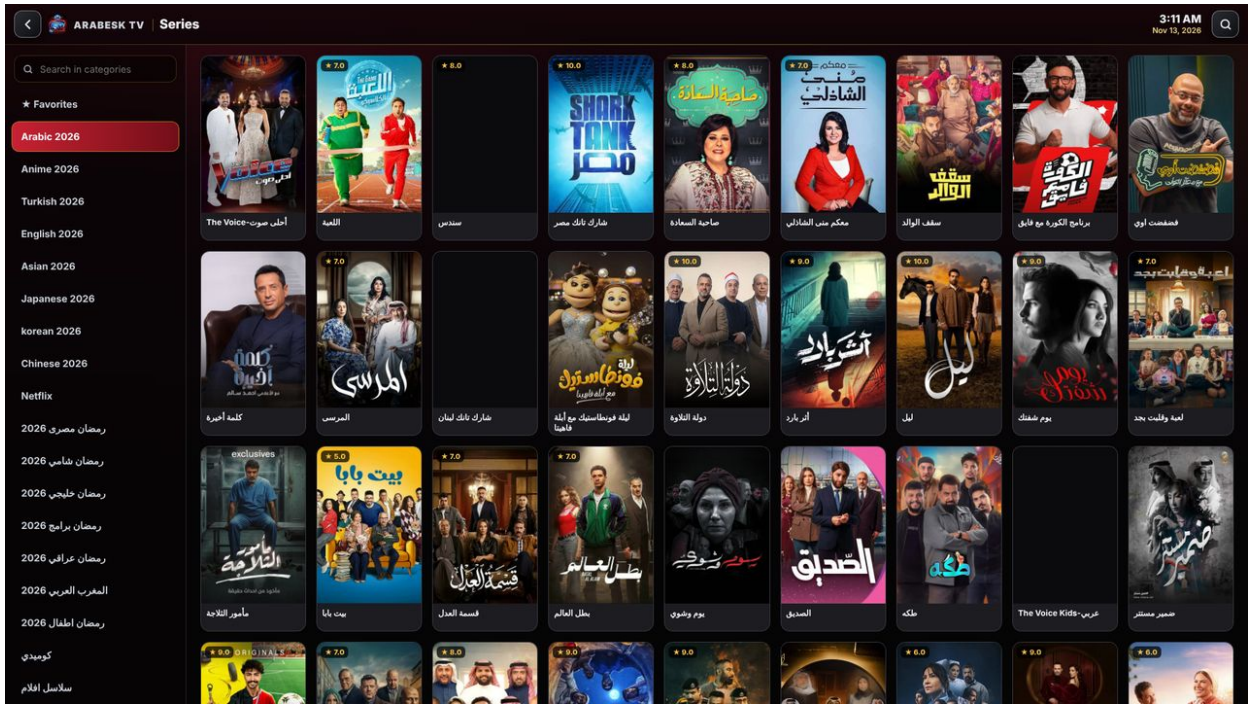

OK opens the categories and channels over the playing video, with the program guide on the right. Arrows move, OK plays another channel. Back closes the list.

7. Movies

Categories on the left (Favorites first), posters on the right. OK opens the movie page with Play, Favorites and details; the player has a seek bar and remembers where the user stopped.

8. Series

Same layout as Movies. OK opens the series page with seasons and episodes; watched and in-progress episodes are marked.
